## CITATION 240

### PAINT SPRAYER/RESPIRATOR SYSTEM

The Citation HVLP 'twin turbine' system provides both a 'professional quality' paint spray system and the HobbyAir supplied-air respirator in one portable package. This system comes complete with everything you will need to spray exceptionally fine finishes with practically any material and to breathe in safety and comfort while you work. The basic system includes two 40' airlines (one for breathing and one for painting) and a half face mask. Available options include: A larger two-person Citation system with 3 airlines (2 for breathing and 1 for spraying), Full face masks, and air-supplied hoods. This system comes with an unconditional 1-year warranty.  
P/N 12-15900 .....\$929.00  
Optional 4 ft. whip hose .....P/N 12-15910 .....\$19.75

## CITATION INTAKE ADAPTER

The Intake Adapter allows the pump unit to be placed inside the shop area, keeping it out of the elements. With the adapter installed, the vent hose can be extended to a fresh air location up to 50 feet away, allowing the pump to draw in fresh air from a distant location. The caution is to place the pump in a location inside the shop that is at least 30 ft away from the actual spray area in which it will not come in contact with flammable material. For example, the pump should never be placed inside a paint booth. Adapter kit comes complete with the steel adapter itself, screws, weatherstrip, hose clamp, 50 feet of 4-inch hose and installation instructions.

P/N SX-70 .....\$51.75

## AXIS HVLP PAINT SPRAYERS

The Axis series of paint sprayers is designed to take the guesswork out of choosing a spraying system which can be confusing for the homebuilder who is going to paint for the first time. Rather than offer a wide variety of sprayers, Axis has selected the best turbine for each type of product normally used to finish an airplane. This is the SP 2003 (3 stage turbine) which is furnished with 30 feet of air delivery hose and the Lexair spray gun. Select one of the three systems shown below based on type of material you will be spraying. If waterborne materials are going to be used, we can furnish systems for this process on a special order basis.  
Sys. 1 to paint aircraft covered in fabric.....P/N 12-15920 .....\$770.00  
Sys. 2, to paint composite structure.....P/N 12-15930 .....\$673.00  
Sys. 3, to paint over metal or wood .....P/N 12-15940 .....\$770.00

## THE MESS MASTER

This handy device traps the mess and drains it away. The waterproof skirting contains overspray and grime splash, while the heavy duty, perforated steel platform traps the gunk and pumps it away. This little tool can pay for itself many times over in increased productivity and labor savings benefits. Stop cleaning up after every engine cleaning and get the MESS MASTER 4000©. Features: • Keeps the grime off shop floor • Saves labor and costs • Increases productivity • Improves hangar safety • Folds away for easy storage
